## HISTORY

As craft beer has emerged and grown, so has IPA! IPA has helped grow Craft Beer to what it is currently today. There are now many shapes and forms of IPA, but they all share bright aromatic hop aroma of citrus, tropical fruit, and pine.

Our Big IPA is a nod to the world of Double and Triple IPA's, but with a little less booze and malt. This Big IPA keeps it simple with only Rahr 2-Row Pale for malt and lifted by super star hops from Washington and New Zealand. Big punchy tropical fruit flavors with round and juicy stone fruit. This beer drinks powerful, but surprisingly easy.

## TASTING NOTES

Bright white foam sits on top of golden rays of malt. Aromas of ripe guava, papaya, stone fruit, gooseberries, and blackberries. Powerful flavors of fresh berry jam, pineapple, tangerine, and tropical punch. Finishes soft, juicy, with a kiss of hoppy resin.

## FOOD PAIRINGS
