

DAVE'S WEST COAST IPA

INGREDIENTS

MALT

Admiral Maltings Pilsner Malt

HOPS

Simcoe, Simcoe Hyperboost, Mosaic, Citra, Krush Cryo, Columbus Cryo, Nectaron, Abstrax Quantum: Nectaron

YEAST

American Ale

TASTING NOTES

Lightly golden in appearance and topped with rocky white foam. Intense aromas of grapefruit, cannabis, and tropical fruit pair with bright flavors of pineapple, stonefruit and resinous pine. This west coast IPA finishes vibrant and expressive with a lingering hoppy bitterness.

FOOD PAIRINGS

Rich and hearty burgers, French fries and complex pizzas. Aged cheddar cheese, aged meats, and pickled vegetables. Indian cuisine that is spice forward and balanced by yogurt and cream-based sauces.

HISTORY

As craft beer has emerged and grown, so has IPA! IPA has helped grow Craft Beer to what it is currently today. There are now many shapes and forms of IPA, but they all share bright aromatic hop aroma of citrus, tropical fruit, and pine.

This beer was created by long time pFriem employee, brewer Dave Newsom. The goal of this beer was to create an expressive and punchy beer that finishes dry and clean with a lingering bitterness. The base of this beer features a wonderfully light yet flavorful pilsner malt from our friends at Admiral Maltings paired with a bit of dextrose to help to create a dry finish. We bittered this beer with a CO₂ extract to ensure a strong yet balanced bitterness. For hops, this WCIPA was built from classic base notes of citrus, pine and a touch of dankness from the help of Simcoe and Columbus Cryo. Middle notes of classic mixed berries and citrus zest are derived from the dry hop with the hop duo powerhouse Citra and Mosaic. Top notes of tropical fruits help harmonize the flavors and provide an impactful aroma with the use of Krush Cryo and Nectaron with a slight hand of Abstrax Quantum: Nectaron in the brite tank to boost the aroma just a bit further. Expect a dynamic yet harmonious drinking experience that finishes light, clean and with a slight lingering bitterness.

GRAPEFRUIT, CANNABIS,
STONEFRUIT, RESINOUS
