TROPICAL
HAZY IPA

PINEAPPLE, MANGO, PASSION FRUIT

HISTORY

For pFriem Tropical Hazy IPA we look to push the boundaries of aroma and flavor intensity. We built the base of this beer on a classic 2-Row Pale malt accompanied by both oats and chit malt to provide a luscious mouthfeel. The hops were carefully selected to create highly saturated notes of passion fruit, pineapple and mango, our Tropical Hazy IPA takes you on a vacation for your senses. The passion fruit flavors bring a lively, zesty tartness that's beautifully balanced by the inherent, sweet juiciness of the pineapple. The mango then comes into its own in the mid-palate, lending a smooth, almost custard-like tropical richness that makes each sip incredibly satisfying and harmonious. The bitterness remains restrained allowing those vibrant fruit flavors to truly sing without any competition, leading to an exceptionally clean, refreshing and luscious finish.

TASTING NOTES

Pouring a glowing, vibrant marigold with a cream like foam, this Hazy IPA opens with a rush of tangy passion fruit and ripe pineapple. The flavor delivers on that tropical promise, adding a smooth, custard-like mango richness to the palate. With restrained bitterness and a clean, luscious finish, the vibrant and tropical fruit flavors truly sing.
